EXPERIENCE

2025 - 2026 **VANCITY** Vancouver, Canada
Management Consultant - Climate Risk
- Spearheaded the credit union's first climate risk framework as sole climate specialist, presented it to the Board, won approval in 5 months and set exposure limits and escalation paths across a $41 bn balance sheet
- Secured senior credit committee buy-in to make climate screening a mandatory step in credit approval for all deals above $5 mn, then trained 60 underwriters across residential and commercial lending
- Launched LLM-based reviewer agents and chatbots on Amazon Bedrock with zero data retention to screen every commercial loan application for climate risk and answer policy queries, halving policy rollout to 6 weeks
- Overhauled borrower risk classification in core banking with technology and credit teams, writing the requirements and surfacing ~$250 mn of deals with high climate risk exposure at the firm's investment bank

2024 - 2025 **NOVISTO** Montreal, Canada
Data Management Analyst - ESG
- Transformed a 4-person analyst team into a standing function during a restructure and revamped its reporting workflow in 3 months, cutting feature release times by 75%
- Led market entry into 14 new countries as the firm's disclosure standards expert, expanding the sales pipeline by more than 80% through go-to-market workshops with product, engineering and customer success
- Authored and implemented 4 product enhancements from client requirements, increasing NPS by 20%

2022 - 2024 **JPMORGAN CHASE & CO.** Mumbai, India
Analyst - Climate Risk
- Designed and rolled out a climate readiness score across $1.1 tn in credit exposure, the flagship model behind the firm's climate disclosures; the European Central Bank then moved the firm from laggard to leader
- Devised a framework combining ratings agency and EPA data to classify high environmental risk sectors, finding $140 bn existing screens missed; presented to the Chief Risk Officer and featured in an employee spotlight
- Modeled transition risk scenarios with the Wholesale Credit Risk team across a $650 bn oil and gas, power and auto manufacturing portfolio, flagging more than $200 bn of oil and gas exposure at risk of stranding

2022 - 2022 **S&P GLOBAL** Gurugram, India
Analyst - Low Carbon Commodities
- Built emissions models for oil fields and shales representing 82% of global oil and gas production, with 20% more coverage than competitors and twice the accuracy of the closest competitor
- Integrated low-carbon datasets into Capital IQ with the technology team, making it the #1 ranked ESG data and metrics platform for crude oil, used by investment banks, asset managers and private equity firms

ADDITIONAL DATA
